Library

This term, we are very fortunate to be upgrading to a new Library Borrowing system called ‘Oliver’. This new system is planned to be upgraded on Tuesday 9th February and Wednesday 10th February. Library borrowing will commence on Tuesday 16th February.

Can you please ensure that children bring a Library bag to do their borrowing on the 16th February. Library will be every Tuesday after that. The students are allowed to keep their Library books for 2 weeks before returning them and can borrow up to 2 books each time (This is usually extended to 4 books when the Premiers Reading Challenge is on). Overdue notices will be sent out twice a term to remind students to bring back their books.

Computers

After such a wonderful display of their technology abilities at our Presentation Night last year, students are once again taking part in weekly technology lessons. Tuesday 9th February is ‘Cyber Safety Day’.

Students have been learning about ways that we can stay safe when using a computer, internet and even our I-Pads. Students this week are creating Cyber Safety posters to remind us all of the ways that we can stay safe.
A note from Mrs Kinlyside

Hello. I teach at Carcoar Public School on Thursdays and I particularly focus on the Creative Arts areas. This will include music skills and concepts, singing, instruments, ensembles, listening, appreciation of the arts, drama, movement, dance, poetry and performance.

I will also teach Geography, which will involve mapping and learning about natural and constructed features of Australia and the world. Understanding indigenous perspectives will be an important component.

Mrs Cartwright will focus on the geographical and historical aspects of Carcoar and the local area. Numeracy can be integrated into Geography with lessons on time, scale, position, co-ordinates, grids, design and direction.

As part of the Literacy Program, I will teach Handwriting and Grammar and incorporate Reading and Writing, using an integrated unit approach to learning.

My day at Carcoar Public School is wonderful. The students are so keen to learn and it is a pleasure to be part of such an enthusiastic teaching team.

Reminders

- $3.50 entry fee for swimming lessons Wednesdays
- Library bag for borrowing Tuesday 16/2/16

Country of Study

This year, the students are taking part in the CWA Country of Study project. Each year the CWA chooses a country that the students are able to research and create an information poster on. This year they have chosen the country of ‘Mongolia’. Students will be spending this term studying the country of Mongolia, before creating their information posters at the beginning of next term.
